

Taxa e orçamento de capital

FINANÇAS CORPORATIVA

O que é Orçamento de Capital?

O orçamento de capital é um processo fiscalmente responsável por gerenciar os recursos disponíveis para selecionar os projetos de longo prazo que demonstrem o maior grau de potencial para gerar um alto retorno sobre o investimento desses recursos. O orçamento de capital requer a compreensão do equilíbrio entre a quantidade de recursos que serão gastos, a taxa em que esses recursos serão utilizados e a rapidez com que o investimento começará a mostrar um retorno, atingir o ponto de equilíbrio e, eventualmente, começar a mostrar um lucro.
